

Career Connected Learning Resources:

To inform and help our students learn about the variety of Career Pathways available to them, Career Connect Washington has created the Career Connected Learning Continuum. The South Central Washington STEM Network and its regional and statewide partners have collaborated to develop a menu of Career Connected Learning (CCL) activities that begin with Career Awareness and Exploration, move to Career Preparation, and culminate in Career Launch opportunities. Check out the variety of CCL resources listed below.

Career Awareness and Exploration

STEM Like Me: [Link Here](#)

STEM In Action Videos: [Link Here](#)
